Subject Index

* = Abstract

A

- Adenosine triphosphate treatment in galactosamine hepatitis 544*
- Age factor and drug metabolism 80
- Alanine releasing intestinal enterokinase in man 389
- Alcohol, ethyl
 - elimination and fructose 550*
 - hepatotoxicity 521*
 - kinetics in cirrhosis 517*
 - in triglycerides in hyperlipidemia with liver damage 461*
 - liver lipids and bile acid conjugation 521*
- Alcoholism without cirrhosis, clinical morphological and biochemical correlations 465*
- Alkaline phosphatase
 - canalicular activity 516*
 - elevation in liver cancer 87
 - elevation in obstructive jaundice 87
 - histochemical localization and serum value 525
 - isoenzyme pattern in liver disease 527*
 - relationship with 5 nucleotidase 87
- α_1 -antitrypsin
 - in the liver cells in α_1 -antitrypsin deficiency 450*
- α_1 -antitrypsin deficiency
 - culture of liver cells and fibroblasts 482*
- α -foetoprotein
 - estimation by immunoelectrodiffusion 396
 - in the screening of primary liver neoplasm in Dakar 8
 - liver regeneration in hepatitis 522*
 - passive haemagglutination in liver cirrhosis 443*
 - positive in gastric cancer 396*
 - positive in hepatoma 396
 - positive in liver metastases 396
 - positive in viral hepatitis 396
 - radioimmunoassay in metastatic liver cancer 526*
- Amenorrhea as produced by coeliac disease 509
- Amino acids in plasma
 - urine and liver and liver damage 468
 - urine and liver and phenobarbital treatment 469
- Amino acids metabolism in liver and starvation 552*
- Ammonia intestinal production, effects of antibiotics and lactulose 519*
- Anemia haemolytic and Gilbert's disease 517*
- Anemia in chronic liver disease 553*
- Antibiotics on intestinal ammonia production 519*
- Antibodies in aggressive hepatitis and liver cirrhosis 542*
- APUD characteristics of endocrine cells in alimentary canal 372
- Arsenic and non cirrhotic portal hypertension 441*
- Ascites
 - in liver cirrhosis and renal function 456*
 - in liver cirrhosis with hyponatremia 449*
- Aspartate aminotransferase isozymes in the liver and uremia 532*
- Australia antigen
 - epidemiology and clinic of subtypes 436*
 - immunofluorescence of 'core' antigen 437*
 - in primary liver cell carcinoma and cirrhosis 443*
 - positive blood donors 547*
- Autoantibodies microsomal in active chronic hepatitis 450*

- Autoimmune disease of the liver
 association with rheumatoid arthritis 462*
- Autonomic nervous system in liver disease 531*
- Azygos shunting in cirrhosis 478*
- B**
- Barbiturates
 enzyme induction in the liver 80
- Bile
 canalicular production in man 437*
 production and fasting 439*
- Bile acids
 absorption by dietary fibres in the intestine 368
 and chenodeoxycholic acid therapy 431*
 3 β -hydroxy-5-cholenoic acid in cholestasis 458*
 conjugation and alcohol ethyl 521*
 effect on drug metabolism 470*
 in bromsulphalein induced cholestasis 548*
 in cirrhosis and primary biliary cirrhosis 462*
 in portal blood after intestinal resection 534*
 metabolism and enterohepatic circulation 533*
 output in gallstone patient 431*
 sulfation in perfused bile duct 529*
 transport and electric potential 438*
 uptake kinetics 545*
- Bile acids excretion and portacaval anastomosis 479*
- Bile duct
 and non toxic cholestatic hepatitis 536*
 ligation and pentobarbital metabolism 539*
 proliferation in fulminant hepatic failure 68
- Bile ductules proliferation and inflammation
 determination of 5-nucleotidase 87
- Bile flow and portacaval shunt 479*
- Bile formation
 absorptive and secretory ductal mechanisms 525*
 and calcium 515*
 in dogs, effect of glucagon 220
 in galactosamine hepatitis, and phenobarbital 460*
 influence of insulin 459*
- Bile salts sulfation and liver disease 440*
- Bile secretion
 route of sodium transport 484*
 sodium and solute transport 484*
- Biliary obstruction and cholesterol in plasma and synthesis 469*
- Bilirubin
 binding proteins, development in fetal and newborn rats 479*
 carrier transport in the liver cell membrane 446*
 effect on drug metabolism 470*
 in bile in Gilbert's and Crigler-Najjar's syndromes 445*
 kinetics as liver excretion test 524*
 load due to nicotinic acid and phenobarbital 474*
 metabolism in Gilbert's syndrome and portacaval shunt effect of rifampicin 537*
- Biopsy
 needle in hepatomegaly 522*
- Blood glucose and glucose in ascitic fluid 347
- Blood group substances
 and iron binding glycoprotein 53
- Breast-milk jaundice 446*
- Breath analysis and microsomal drug metabolizing capacity 448*
- Bromsulphalein
 and fatty acid uptake 545*
 and portacaval anastomosis 479*
 carrier transport in the liver cell membrane 446
 conjugation and diuretic agent 445*
 induced cholestasis and taurocholate 548*

- C**
- Caerulein and secretin, on bile flow 477*
- Calcium**
- and bile formation 515*
 - and enzymes in pancreatic juice 336
 - role in calcium pancreatic secretion 269
 - role in calcium salivary secretion 269
 - role in gastric secretion 269
 - role in pancreatic secretion 269
 - role in salivary secretion 269
 - secretion in gastrointestinal secretion 269
- Calcium deficiency
- in gastrectomized patients 324
- Carbohydrate metabolism in cholestasis 558*
- Carbon tetrachloride hepatic necrosis and spleen 523*
- Carcinoma of the liver and australia antigen 443*
- Carnitine**
- palmitoyl transferase in galactosamine hepatitis 544*
- Celiac disease
- associated to amenorrhea 509
 - increased cell loss 144
- Cell cycle 191
- Cell differentiation and mitotic activity in the gastrointestinal mucosa 191
- Cell loss
- in the intestinal tract 239
 - intestinal as a source of non dietary lipids in intestinal lumen 239
- Cell renewal
- after intestinal by pass 176
 - after small bowel resection 176
 - in intestinal epithelium 130, 161
- Chelating agents in thalassemia therapy 442*
- Chenodeoxycholic acid
- effect on cholesterol in bile 440*
 - effect on liver function and histology 432*
 - effect on serum bile acids 431*
 - on biliary lipid secretion in gallstone patient 536*
- Cholecystectomized patients
- pancreatic secretion 336
- Cholecystokinin**
- Effect on calcium and enzymes secretion 336
- Cholecystokinin influence on chymotrypsin trypsin ratio in pancreatic secretion in man 101
- Choleresis inhibition by fructose 439*
- Choleretic effects of diuretics 515*
- Cholestasis**
- and plasma lipoproteins 475*
 - due to venous congestion 474*
 - formation of 3 β -hydroxy-5-cholenoic acid 458*
 - intrahepatic and carbohydrate metabolism 558*
 - lipoproteins catabolism 453*
- Cholesterol**
- and clofibrate in biliary obstruction 433*
 - in bile and chenodeoxycholic acid 440*
 - in plasma and synthesis in biliary obstruction 469*
- Cholesterolose 543*
- Chymotrypsin**
- trypsin ratio in pancreatic secretion of man 101
- Circadian variation of intestinal cell proliferation 161, 191
- Clofibrate**
- effect on cholesterol in biliary obstruction 433*
- Coagulation in acute hepatic failure 559*
- Colectomy and hepatic encephalopathy 471*
- Colon cancer**
- experimental induced in rats by dimethyl hydrazine 22
- Complement**
- activation in liver disease 553*
 - in liver disease 528*
- Corticoids therapy and liver histology in hepatitis 470*
- Corticotropin or prednisolone in aggressive hepatitis 483*

- Cross reactivity between serum protein from different species 15
- Crypt
villus ratio in intestinal mucosa 161
- Cyclic AMP
permissive role of glucocorticoids 455*
stimulation of RNA synthesis 450, 454*
- Cycloheximide
inhibition of gastric secretion in the rat 299
- D
- Dehydrocholic acid metabolism in liver 472*
- Diagnosis, differential in liver diseases 555*
- Dietary fibres
effect on bile acids metabolism 368
effect on diverticular disease 368
effect on feces hydratation 368
- Dietary lipids
and lipid content of intestinal cells 239
- Digestive diseases
research programs 289
- Dimethyl hydrazine
induction of intestinal carcinoma in rats 22
- Dimethyl sulfoxide
Decrease in succinate deshydrogenase activity in the gastric mucosa 120
- Disaccharidases
congenital deficiency in an adult 353
level in normal human jejunum 317
- Diuretic agent
effect on bromsulfalein conjugation 445*
- Diuretics
choleretic effects 515*
- Diverticular disease
and dietary fibres 368
- DNA liver
incorporation of thymidine 520*
- DNA loss as a measure of cell loss
in the digestive tract 130, 144, 161
- DNA synthesis in atrophic gastritis and polyposis 191
- Dogs
intestinal resection 293
- Drug
interaction and metabolism in the liver 80
metabolism in the liver and enzyme induction 80
- Drug abuse
hepatitis associated antigen and liver abnormalities 472*
liver disease and autoantibodies in oxyphenisatin users 482*
- Duodenal
juice in primary haemochromatosis 442*
pH and duodenal ulcer 261
- Duodenum
determination of pH in the lumen 261
- Dyes cholephilic biliary excretion and fasting 439*
- E
- Electrolytes movement in intestinal lumen 208
- Endocrine cells
classification in alimentary canal 372
in gut and pancreas, origin in neural crest 372
migration in alimentary canal 372
- Enterokinase
released by alanine in man 389
released by glucagon in man 389
- Enzyme induction and drug metabolism in the liver 80
- Enzymes
and calcium in pancreatic juice 336
- Epithelial disease
with increased cell loss 144
- Epithelial turn over in intestinal villi 130, 161, 176
- Esophageal cardiac glands
presence of sulfate esters in mucous glands 110
- Esophageal ligation
influence on gastric mucous secretion in rats 497

- Esophageal varices
 - selective decompression by a distal splenorenal shunt 554
- Exfoliative enteropathy as a cause of malnutrition 144
- F
- Factor VIII
 - elevation in acute liver necrosis 360
 - in liver cirrhosis and in septic abortion 552*
 - influence of plasmapheresis 360
- Fasting
 - bile production and biliary excretion of cholephilic dyes 431*
 - effect of UDPG on glucuronyl transferase 537*
 - reduction of intestinal cell loss 130
- Fatty acids
 - non esterified metabolism in liver and starvation 552*
 - oxidation in galactosamine hepatitis 544*
 - synthesis and fructose 550*
 - uptake and cholephylic anions 545*
- Feces hydration
 - and dietary fibres 368
- Fetoprotein
 - non specific heterophilic precipitin reactions 15
- Fructose
 - in cirrhosis diagnostic 535*
 - induced inhibition of choleresis 439*
 - on ethanol elimination and fatty acid synthesis 550*
- Furosemide and liver cirrhosis 466*
- G
- γ -glutamyl transpeptidase and phenobarbital induction 473*
- Gastrectomy
 - and lactose intolerance 324
 - induction of osteomalacia 324
 - influence in calcium absorption 324
- Gastric drainage
 - influence on gastrin level after parietal cell vagotomy 1
- Gastric juice
 - contamination by saliva in rats 497
 - non IF binders for vitamin B₁₂ 417
- Gastric mucous secretion
 - contamination by saliva in rats 497
- Gastric pouch
 - vagally innervated in dogs 293
- Gastric secretion
 - increase following intestinal resection in dogs 293
 - inhibition by cycloheximide in the rat 299
 - inhibition by dimethyl sulfoxide in rats 120
 - inhibition by glucagon in dogs 220
 - inhibition of acid secretion in rats 120
 - isolation of iron binding glycoprotein 53
 - role of calcium 269
 - strain related difference in rats 308
- Gastric tube
 - influence on salivary and pharyngeal mucous secretions in man 227
- Gastrin
 - in liver cirrhosis 533*
 - influence on glucose intestinal absorption 208
 - influence on intestinal transit time 208
 - influence on movements of sodium, potassium, water in intestinal lumen 208
- Gastrin release
 - by a glycine meal 201
 - failure to affect insulinemia 201
- Gastrin serum
 - after a meal 1
 - after intragastric neutralization 1
 - after parietal cell vagotomy 1
 - inhibition by secretin in normal patients and in pernicious anemia 407
 - stimulation by secretin in Zollinger Ellison syndrome 407
- Gastritis atrophic
 - and mitotic activity of surface cells 191
 - increased cell loss 144
- Gastrointestinal cell loss
 - measurement in man 144

- Gilbert's disease
 and haemolytic anemia 517*
 vitamin K dependant factors 532*
- Gilbert's syndrome
 bilirubin metabolism and rifampicin 537*
- Glucagon
 absence of effect on bile secretion in dogs 220
 inhibition of gastric acid secretion in dogs 220
 inhibition of pancreatic exocrine secretion in dogs 220
 releasing intestinal enterokinase in man 389
- Glucocorticoids
 permissive role on cyclic AMP activity 455*
- Gluconeogenesis by isolated rat liver and uremia 480*
- Glucose
 in ascitic fluid
 in congestive heart failure 347
 in peritoneal diseases 347
 in portal hypertension 347
- Glucuronyl transferase
 effect of UDPG in rats 537*
- Gluten free diet influence on amenorrhea from coeliac disease 509
- Glycine meal and gastrin and insulin release 201
- H**
- Halothane in etiology of fulminant hepatic failure 68
- Hearing loss, sensori-neural
 after porta caval shunt 248
 in liver cirrhosis 248
 in neomycin therapy 248
- Hemochromatosis
 effect on duodenal juice 442*
 idiopathic and secondary to liver cirrhosis 549*
 increased pancreatic secretion 485
- Hemorrhage gastrointestinal
 liver cirrhosis and polyuria 546*
- Hemosiderosis familialy
 iron in liver 483*
- Hepatic cell hyperplasia in fulminant hepatic failure 68
- Hepatic failure 481*
- Hepatic failure fulminant
 liver histology 68
 pyroninophilic cells in liver and etiology 68
 toxic and viral etiology 68
- Hepatic coma
 and colectomy 471*
 and levodopa 530*
 elevation of factor VIII 360
 experimental, heterotopic allograft 520*
- Hepatitis
 acute and hexobarbital kinetics and tolerance 560*
 α -fetoprotein and liver regeneration 522*
 corticoids therapy and liver histology 470*
 with scleroderma, Raynaud's phenomenon and telangiectasia 42
- Hepatitis B
 antigen in healthy subjects, hepatic histology 465*
 antigenic properties 436*
 cell mediated immunity 435*
 exposure and immunity 435*
 subtypes 542*
- Hepatitis chronic active
 liver function test, LE-cell phenomenon and AU (SH) antigen 556*
 microsomal antibodies 450*
 subgroups and microsomal antibodies 557*
- Hepatitis drug induced
 by galactosamine, adenosine and ATP treatment 544*
 by galactosamine, fatty acid oxidation and carnitine - palmityl transferase 544*
 by galactosamine, influence of phenobarbital on bile formation 460*
 by galactosamine with encephalopathy,

- effect of phenobarbital 466*
 - by rifampicin 551*
 - by thioacetamide, iron absorption 460*
- Hepatitis experimental
 - phagocytosis function 548*
- Hepatitis viral
 - anti HB globulins in HB fulminant hepatitis of infants 476*
 - factor VIII level in acute liver necrosis 360
 - incidence in aged patients 254
 - insulin immunoreactivity 550*
 - prediction of chronic liver disease 434*
 - prednisolone or corticotropin 483*
 - role of immunity 528*
 - serum antibodies 542*
 - severity in aged patients 254
 - spread in an urban area 519*
 - subtypes of HAA 541*
 - treatment by plasmapheresis 360
- Hepatomegaly
 - study by needle biopsy 522*
- Heterophilic antibodies in α -fetoprotein determination 15
- Hexobarbital kinetics and tolerance in hepatitis and cirrhosis 560*
- Histidine decarboxylase in rat stomach 299
- Hormones and intestinal mucosa structures 176
- Hydrocortisone
 - effects on liver cells 516*
- Hyperbilirubinemia in paracetamol liver damage 444*
- Hyperlipemia
 - incorporation of ethanol into triglycerides 461*
- Hypertension portal
 - idiopathic intrahepatic 458*
- Hyponatraemia in liver cirrhosis with ascites 449*
- I
- Index bone area
 - in gastrectomized patients 324
- Insulin
 - immunoreactivity in viral hepatitis 550*
 - influence on bile formation 459*
 - response to oral glucose 201
- Insulin release
 - after a glycine meal 201
 - after intraduodenal glycine 201
- Insulin stimulated gastric secretion, inhibition by cycloheximide in the rat 299
- Intestinal absorption
 - after resection and by pass 176
 - of glucose, influence of gastrin 208
 - of vitamin B₁₂ in the cat 417
- Intestinal by pass
 - influence on cell turn over 176
- Intestinal hyperplasia
 - and polypeptide hormone secreting tumor 176
- Intestinal laminal nutrition and villous morphology 176
- Intestinal loops in the study of vitamin B₁₂ absorption 417
- Intestinal mucosa
 - enterokinase activity 389
 - lipid content of cells 239
- Intestinal mucosal enzymes after resection and by-pass 176
- Intestinal resection
 - and acid hypersecretion in dogs 293
 - effect of vagotomy on acid secretion 293
 - influence on cell turn over 176
- Intestinal transit time
 - influence of gastrin 208
- Intestine small, experimental cancer induced in rats by dimethyl hydrazine 22
- Intrinsic factor, not involved in vitamin B₁₂ absorption in the cat 417
- Iron
 - absorption in thioacetamide cirrhosis and portacaval shunt 460*
 - effect of pH on iron binding by gastric glycoprotein 35
 - in liver in familiar hemosiderosis 483*
 - in liver in thalassemia, chelation therapy 442*
 - interaction with blood groups substances 53
 - interaction with gastric glycoprotein

- 35, 35
load and pancreatic secretion in hemo-
chromatosis 485
loads, experimental siderosis 529*
- Iron binding glycoprotein
and blood group substances activity
53
determination of composition 53
effect of pH on binding of ferric ions
35
in gastric juice 35
isolation in gastric juice 53
significance in iron absorption 35
- Iron complexing agents
competition with the binding glycopro-
tein 35
- Isolated liver cells
hepatic function study 463*

and alcohol ethyl 521*
content of intestinal villous cells 239
in bile and chenodeoxycholic in gall-
stone patients 536*
secretion in bile and cholelithiasis 535*
- Lipoproteins
and cholestasis 475*
- catabolism in cholestasis 453*
in liver disease 434*
of cholestasis and lecithin-cholesterol
acyl transferase 546*
- Liver
- biopsy in chronic active liver disease
538*
failure as a first manifestation of
Wilson's disease 447*
manganese and zinc content, effect of
phenobarbital 467*
of patients with irreversible coma 473*
sensitivity to oncotic pressure and
sodium and glucose concentration
453*
volume calculation 467*
- Liver cancer
diagnostic values of 5-nucleotidase 87
- Liver cells
separation by a ficoll gradient 557*
- Liver circulation
post sinusoidal pressure and histology
554*
- Liver cirrhosis
and gastrin 533*
and hexobarbital kinetics and tolerance
560*
and kinetics of ethanol 517*
azygos shunting 478
diagnosis with fructose 535*
disseminated intravascular coagulation
481, 543*
experimental with iron loads 529*
passive haemagglutination of α_1 -feto-
protein 443*
pentobarbital pharmacokinetics 448*
sensori neural hearing loss 248
serum and biliary bile acids 462*
serum antibodies 542*
with ascites and renal function 456*
with ascites and spontaneous hypona-
traemia 449*
- Liver disease
and colour vision defects 523*
autoimmune, association with rheuma-
toid arthritis 462*
lecithin-cholesterol acyltransferase and

- proteins 464*
 - with periportal sinusoidal dilatation 441*
- Liver failure
 - electrophysiological and histological study 524*
- Liver neoplasm, primary
 - postivity of α -fetoprotein in systematic screening 8
 - presence of alpha-fetoprotein 396
 - time of appearance of α -fetoprotein 8
- Liver neoplasm metastatic
 - presence of alpha-fetoprotein 396
- Lymphocytes T and B in liver disease and rosette inhibition test 478*
- M
- Maltase
 - isomaltase deficiency in an adult 353
- Manganese
 - and zinc liver content, effect of phenobarbital 467*
- Metabolic consequence of gastrointestinal cell loss 144
- Microsomal liver enzyme and drug metabolism 80
- Microsomes
 - antibodies and active chronic hepatitis 557*
 - autoantibodies in active chronic hepatitis 450*
 - drug metabolizing capacity, and breath analysis 448*
- Milk intolerance
 - and osteomalacia in gastrectomized patients 324
- Mitotic activity of the gastrointestinal mucosa 130, 144, 161, 191
- Mucopolysaccharides acids in human salivary secretions 227
- Mucous glands accessory in the oral cavity 110
- Mucous secretions gastric
 - contamination by saliva in rats 497
- N
- Neural crest
 - cell migration in alimentary canal 372
 - origin of endocrine cells in alimentary canal 372
- Neurologic manifestations
 - peripheral in liver disease 531*
- Nicotinic acid and hyperbilirubinemia, effect of phenobarbital 474*
- 5-nucleotidase
 - age dependance of serum levels 87
 - allosteric inhibition by nucleoside triphosphates 87
 - as a plasma membrane marker 87
 - diagnosis of obstructive jaundice 87
 - early detection of liver cancer 87
 - elevation in hepato-biliary diseases 87
 - in rat liver plasma membrane 87
 - index of bile duct lesions 87
 - measurement of activity 87
 - presence in pancreatic islets 87
 - regulatory function in nucleic acid metabolism 87
 - relationship with alkaline phosphatase 87
 - role in coronary blood flow regulation 87
 - role in maintaining blood-brain barrier 87
- Nutrition portal
 - hepatic assimilation and tolerance 457*
- O
- Osteomalacia
 - in gastrectomized patients 324
- P
- Pancreatic enzymes
 - interrelationships under various conditions of stimulation in man 101
- Pancreatic juice enhancement of vitamin B₁₂ in intestinal loops 417
- Pancreatic secretion
 - and iron load in hemochromatosis 485
 - in cholecystectomized patients 336
 - in chronic pancreatitis 336
 - in duodenal ulcer patients 261
 - in hemochromatosis 485
 - of calcium and enzymes 336

- role of calcium 269
- secretion of calcium 269
- Pancreatitis
 - and fulminant hepatic failure 540*
 - and peptic ulcer 261
- Pancreatitis chronic
 - effect of CCK on pancreatic juice 336
- Paracetamol
 - in etiology of fulminant hepatic failure 68
 - liver damage and hyperbilirubinemia 444*
- Parafilm influence on salivary and pharyngeal mucous secretions in man 227
- Pernicious anemia
 - inhibition of serum gastrin by secretin 407
- Pentagastrin stimulated gastric secretion
 - inhibition by cycloheximide in the rat 299
- pH in the human duodenum 261
- Phagocytosis function in experimental hepatitis 548*
- Pharyngeal mucous secretions in man
 - influence of a gastric tube 227
- Phenobarbital
 - and amino acids in plasma, urine and liver 469*
 - and encephalopathy in galactosamine induced hepatitis 466*
 - and manganese and zinc liver content 467*
 - effect on nicotinic acid induced hyperbilirubinemia 474*
 - metabolism and bile duct ligation 539*
 - on bile formation in galactosamine hepatitis 460*
 - pharmacokinetics in cirrhosis 448*
- Phenobarbital induction on γ -glutamyl transpeptidase 473*
- Plasma membrane
 - 5-nucleotidase as a marker 87
- Polyposis colic and mitotic activity of surface cells 191
- Portacaval anastomosis
 - and iron absorption 460*
 - bile flow, bile acid excretion and brom-sulfalein elimination 479*
 - bilirubin metabolism and Gilbert's syndrome 537*
 - criteria for a decision 526*
- Porta caval shunt
 - sensori neural hearing loss 248
- Portal nutrition
 - hepatic assimilation and tolerance 457*
- Portal system
 - hypertension and arsenic 441*
 - hypertension and portal decompression 559*
- Potassium movement in intestinal lumen 208
- Prednisolone or corticotropin in aggressive hepatitis 483*
- Proteins and lecithin-cholesterol acyltransferase in liver disease 464*
- Psoriasis exfoliative and increased cell loss 144
- Pyloric ligation
 - collection of gastric mucous secretions in rats 497*
 - collection of gastric secretion in rats 120
- Pyrimidine
 - biosynthesis in liver 541*
- Pyroninophilic cells in liver in fulminant hepatic failure 68
- R
- Rats
 - strain related difference in gastric acid secretion 308
- Raynaud's disease
 - scleroderma, telangiectasia and chronic active hepatitis 475*
- Renal function
 - during ascitic fluid infusion and furosemide in cirrhosis 466*
 - in liver cirrhosis with ascites 456*
- Research in digestive diseases 289
- Rheumatoid arthritis association with autoimmune liver disease 462*
- Rifampicin
 - and acute hepatitis 551*

- on bilirubin metabolism in Gilbert's syndrome and portacaval shunt 537*
- RNA synthesis
 - stimulation by cyclic AMP 450, 454*
- Rose Bengal assessment of hepatic function 554*
- S
 - Salivarectomy in rats 497
 - Salivary glands
 - accessory presence of sulfate esters in mucous cells 110
 - Salivary mucous secretion
 - contamination of the gastric juice in rats 497
 - Salivary secretions
 - in man, influence of a gastric tube 227
 - role of calcium 269
 - secretion of calcium 269
 - Scleroderma
 - Raynaud's phenomenon, telangiectasia and chronic active hepatitis 475*
 - Secretin
 - and caerulein, on bile flow 477*
 - effect on serum gastrin in normal patients 407
 - effect on serum gastrin in pernicious anemia 407
 - effect on serum gastrin in Zollinger-Ellison syndrome 407
 - influence on chymotrypsin/trypsin ratio in pancreatic secretion in man 101
 - influence on duodenal neutralization 261
 - Siderosis experimental
 - liver cirrhosis and iron loads 529*
 - Sodium
 - movement in intestinal lumen 208
 - transport in bile secretion 484*
 - Spleen and carbon tetrachloride hepatic necrosis 523*
 - Starvation
 - FFA and amino-acid metabolism 552*
 - Strain
 - its influence on gastric secretion in rats 308
 - Succinate deshydrogenase
 - histochemical demonstration in the gastric mucosa of rats 120
 - Sucrose
 - feeding and substrate incorporation in lipids 551*
 - intolerance in an adult 353
 - Sulfate esters
 - in accessory salivary gland 110
 - in esophageal cardiac gland 110
 - in human salivary secretions 227
 - T
 - Taurocholate
 - hepato cellular uptake 432*
 - Telangiectasis
 - Raynaud's disease and scleroderma and chronic active hepatitis 475*
 - Thalassemia
 - liver iron concentration and damage, chelation therapy 442*
 - Thymidine
 - incorporation into DNA liver 520*
 - kinase activity in colonic mucosa 191
 - metabolizing enzymes in mouse liver 464*
 - Toadstool experimental poisoning 556*
 - Transit time of intestinal cells 161
 - Transplantation
 - in hepatic coma 520*
 - liver changes of enzyme activities 539*
 - Triglycerides ethanol
 - incorporation in patients with hyperlipemia and alcoholic liver damage 461*
 - U
 - Ulcer gastro-duodenal
 - pH in the duodenum 261
 - serum gastrin after parietal cell vagotomy 1
 - Ulcerative colitis
 - increased cell loss 144
 - Uracil nucleotides in the rat liver 477*
 - Urea as a marker of the portal blood stream 518*

- Uremia
 and aspartate-amino transferase
 isozymes 532*
 and glucogenesis by isolated rat liver
 480*
- Uronic acids in human salivary secretions
 227
- Uvula
 presence of mucous glands secreting
 sulfate esters 110
- V
- Vagotomy
 effect on acid hypersecretion after
 intestinal resection in dogs 293
- Vagotomy, parietal
 respective level of gastrin with and
 without gastric drainage 1
- Venesection and decrease in pancreatic
 secretion of hemochromatosis 485
- Villi
 morphology in human jejunum 317
- Villous epithelium
 count of cells per villus 161
 kinetic properties 161, 176
 lipid content 239
- Villous hyperplasia after intestinal resection
 176
- Vision
 colour defect and liver disease 523*
- Vitamin B₁₂
 absorption in the cat 417
 enhanced ileal absorption by pancreatic
 juice 417
 non IF binders in the cat 417
- Vitamin K
 dependant factors in Gilbert's disease
 532*
- W
- Wilson's disease
 intravascular haemolysis and liver fail-
 ure 447*
- Z
- Zinc and manganese liver content
 effect of phenobarbital 467*
- Zollinger-Ellison syndrome
 stimulation of serum gastrin by secretin
 407

CUMULATIVE INDEX

Digestion

International Journal of Gastroenterology

Founded as 'Archiv für Verdauungskrankheiten' 1895
Continued as 'Gastroenterologia' 1939-1967

Editor-in-Chief: R. LAMBERT, Lyon

Editors:

Assistant Editor: Y. MINAIRE, Lyon

Case Reports: M. DEMOLE, Genève

Recent Advances:

Editorials:

R. H. DOWLING, London

K. G. WORMSLEY, Dundee

S. ERLINGER, Clichy

Book Reviews:

Subject Index

* = Abstract

A

- Acetyl fusidate, sodium influence on bile lipid secretion in rats 89*
- Acid/pepsin ratio in diagnosis of Zollinger-Ellison syndrome 1
- ACTH
 - effect on gastric acid mucosubstance in rats 241
- Age of onset of chronic pancreatitis 389
- Alcoholism and chronic pancreatitis in France 416
- Alcoholism and chronic pancreatitis in Japan 429
- Alcoholism, chronic
 - hearing level 36
- Alcoholism, influence on chronic pancreatitis 447
- Alcoholism, influence on epidemiology of chronic pancreatitis 389
- Alcoholism in patients with pancreatitis 404
- Alcoholism, its role in chronic gastritis 30
- Alcohol liver damage, influence on intestinal absorption of hemoglobin - iron in rats 293
- Aldosterone effect on bromsulphalein clearance in rabbits 68*
- Alloxan diabetes
 - effect on brush border enzymes in intestine 248
 - effect on intestinal absorption 248
- Alphafetoprotein in hepatoma in Italy 41
- Amino acids
 - intestinal absorption in man 264
- Ammonia clearance
 - after portal arterialization in dogs 332
 - after portacaval shunt in dogs 332
- Amylase in duodenal aspirate, diagnostic value in pancreatic disease 8

Amylase secretion by the rat pancreas *in vitro* 92*

- *Antrectomy, effect on the ethanol induced inhibition of pancreatic secretion 490
- Antrocolic transposition in the rat 71*, 73*
- Application to intestinal diseases 343
- Aspirin esterase and liver metabolism 87*
- Aspirin metabolism in the liver 87*
- Atropine and pancreatic secretion in dogs 231
- Australia antigen in hepatoma in Italy 41

B

- Bicarbonate in pancreatic juice
 - effect of intragastric ethanol 490
- Bicarbonates
 - intestinal absorption in man 264
- Bile acids pool in cholelithiasis 540
- Bile, lipid secretion in rats 89*
- Bile secretion of cholesterol in cholelithiasis 540
- Bile secretion of lecithins in cholelithiasis 540
- Blood flow in isolated perfused canine pancreas 90*
- Blood glucose, portal-arterial difference in intestinal absorption 514
- Bromsulphalein clearance, effect of aldosterone 68*
- Brush border intestinal enzymes
 - effect of experimental diabetes 248
- BSP Tm and BSP S influenced by pemoline administration in man 532
- BSP Tm in Gilbert's syndrome 138

C

- Caerulein
 - influence of protein and bicarbonates on the pancreatic secretion of the dog 469

- Calcifying pancreatitis in Switzerland 404
- Calcium in milk, absorption in lactose intolerance 317
- Carboxylesterase in gastric juice
after histaminic stimulation 124
decrease in atrophic gastritis 124
- Carcinoembryonic antigen
elevated values in inflammatory bowel disease 116
immunofluorescence in colon carcinoma 106
immunofluorescence in non cancerous tissues 106
immunofluorescence in various carcinoma 106
- Cardia, special features of gastric cancer 291
- Carrier common to sodium and glucose in intestinal absorption 357
- CEA diagnostic value in the stools of patients 193
- CEA like antigens in the stools 193
- Celiac disease
intestinal absorption estimated by intestinal perfusion 343
- Chloride
intestinal absorption in man 264
- Cholecystokinetic effect of gastrointestinal hormones 69*
- Cholecystokinin, chemical forms and activity 469
- Cholecystokinin influence on pancreatic enzymes in pancreatectomized rat 212
influence on protein and bicarbonates in the pancreatic secretion of dog 469
- Cholera and intestinal secretion and absorption 357
- Cholera
intestinal absorption estimated by intestinal perfusion 343
- Choleresis and dehydrocholate 81*
- Choleresis and Na-K-ATPase in rabbits 81*
- Choleresis, influence of phenobarbital in rats 138
- Cholestasis recurrent benign 49
- Cholesterol secretion in bile in cholelithiasis 540
- Chronic pancreatitis, analysis of salivary secretion 76*
- Chronic pancreatitis, presence of a protein in pancreatic juice 74*
- Circadian rhythm of gastric acid secretion in man 97
- Coherin, its influence on intestinal motor activity 87*
- Colic cancer
degree of differentiation and CEA immunofluorescence 106
detection of CEA in immunofluorescence 106
- Colic mucosa
non malignant and detection of CEA in immunofluorescence 106
- Colon isolated
inhibition of motor activity by xylamide 149
- Colon motility, disorder in irritable bowel syndrome 21
- Colon neoplasms, diagnostic value of CEA in the stools 193
- Constipation in irritable bowel syndrome 21
- Cortisone
effect on gastric acid mucosubstances in rats 241
- Crohn's disease
elevated CEA values 116
- Cytochrome P 450 in liver
increase after phenobarbital in rats 138
- D
- Dehydrocholate influence on biliary function in rabbits 81*
- Diabetes after alloxan 248
- Diabetes after pancreatectomy 248
- Diabetes after streptozotocin 248
- Diabetes, experimental 248
- Diabetes in chronic pancreatitis 404
- Diarrhea
intestinal absorption estimated by intestinal perfusion 343

- Dietary habits and chronic pancreatitis in France 416
- Diet, influence on epidemiology of chronic pancreatitis 389
- Disaccharidase
 - in intestinal mucosa of chronic pancreatitis 248
 - in intestinal mucosa of diabetic animals 248
- Disaccharides
 - intestinal absorption in man 264
- Dogs, pancreatic fistula 469
- Duodenal acidification
 - influence on gastric myoelectrical activity in man 502
- E
 - Electrical activity of intestine in dogs 87*
 - Electrical activity of the human stomach 75*
 - Electrolyte transport in the small intestine 357
 - Endocrin gastrin cells, absence in normal pancreas 84*
 - Enteritis, regional
 - intestinal absorption estimated by intestinal perfusion 343
 - Enteroglucagon, its immunoreactivity 71*
 - Enterokinase from porcine duodenum 85*
 - Enterokinase in the intestinal secretion of guinea pigs 205
 - Epidemiology of chronic pancreatitis in France 416
 - Epidemiology of chronic pancreatitis in various countries 389
 - Ethanol influence on oddi sphincter in rabbits 93
 - Ethanol influence on pancreatic secretion in dogs 92*
 - Ethanol, inhibition of pancreatic secretion in dogs 231
 - Ethanol intragastric: effect on pancreatic secretion 490
 - Ethnic groups and chronic pancreatitis 389
 - Ethnic groups and chronic pancreatitis in South Africa 438, 447, 454
- F
 - Fecal fat in pancreatectomized rat 212
 - Folic acids
 - intestinal absorption in man 264
 - Food habits in Japan 429
 - Fructose
 - intestinal absorption in man 264
 - Fructose, portal-arterial difference in intestinal absorption 514
 - Fucose
 - increase in brush borders with fasting 309
- G
 - Gallbladder, isolated
 - inhibition of motor activity by xylamide 149
 - Gallbladder, its role in the formation of lithogenic bile 540
 - Gallstones and bile secretion in man 540
 - Gastrectomy, followed by lactose intolerance 130
 - Gastric acid mucosubstances
 - effect of ACTH and cortisone in rats 241
 - Gastric blood flow and gastric secretion in dogs 94
 - Gastric cancer, localization at the cardia 291
 - Gastric distension
 - influence on gastric myoelectrical activity in man 502
 - Gastric emptying and electrical activity in man 75*
 - Gastric endocrine cells after pyloric ligation in the rat 72*
 - Gastric myoelectrical activity in man
 - influence of duodenal acidification 502
 - influence of gastric distension 502
 - influence of secretin 502
 - Gastric parietal cells renewal in rats 83*
 - Gastric secretion
 - influence of propanolol during Hollander test 325
 - Gastric secretion after antrocolic transposition in the rat 71*

- Gastric secretion and gastric blood flow in dogs 94
- Gastric secretion basal in Zollinger-Ellison syndrome 1
- Gastric secretion circadian rhythm and plasma gastrin 97
- Gastric secretion in duodenal ulcer 78*
- Gastrin in plasma and circadian rhythm of gastric acid secretion in man 97
- Gastrin, its hepatic metabolism 70*
- Gastrin secretion following injection of secretin 80*
- Gastrin serum, after antrocolic transposition in the rat 71*
- Gastrin, serum
 following propranolol during Hollander test 325
 following vagotomy in duodenal ulcer patients 325
- Gastritis chronic, its relationship to alcoholism 30
- Gastrointestinal hemorrhage after renal transplantation 66
- Gastrointestinal hormones, cholecystokinetic effect 69*
- Gastrointestinal hormones, influence in pancreatic blood flow 90*
- Gastrointestinal motility
 inhibition by xylamide in animals 149
- Gilbert's syndrome
 BSP Tm and glucuric acid excretion 138
 effect of phenobarbital in bilirubin 138
- Glucose
 intestinal absorption in man 264
- Glucose, intestinal absorption in chronic pancreatitis 438
- Glucose, portal-arterial difference in intestinal absorption 514
- Glucose tolerance test in chronic pancreatitis 404
- Glucuric acid urinary excretion
 as a liver function test 138
- Glucuronyl transferase in liver
 influence of phenobarbital in rats 138
- Glycoproteins
 analysis of the carbohydrates of the intestinal brush borders 309
- Guinea pigs, collection of intestinal secretions from 205
- Gunn rats
 influence of phenobarbital on choleresis 138
- H
- Hearing levels in chronic alcoholism 36
- Hearing loss sensori-neural
 absence in chronic alcoholism 36
- Hemoglobin iron
 absorption and transport as a haptoglobin complex in rats 293
 enhanced absorption in rats with alcohol induced liver injury 293
- Hepatic metabolism of gastrin 70*
- Hepatotoxicity induced by pemoline in man 532
- Histalog stimulation of carboxylesterase in gastric juice 124
- Hyperbilirubinaemia, chronic benign in man 77*
- I
- IgA class of immunoglobulins, response to oral administration 166
- IgA response to oral immunization in rats 69*
- Ileum in intestinal absorption 357
- Ileum, isolated
 inhibition of motor activity by xylamide 149
- Immune response in the intestinal mucosa after oral administration of antigen 166
- Immune response in the spleen after oral administration of antigen 166
- Immunization oral and IgA, IgM response 69*
- Inflammatory bowel diseases
 elevated CEA values 116
- Insulin
 effect on intestinal absorption of sugars 248

- Insulin injection
 - influence on serum gastrin in vagotomized patients 325
- Insulin releasing factor in the intestinal mucosa 79*
- Intestinal absorption
 - after intestinal resection 343
 - effect of experimental diabetes 248
 - estimation in man after intraluminal perfusion 176
 - in celiac disease 343
 - in cholera 343, 357
 - in chronic pancreatitis 438
 - in diarrhea 343
 - in enteritis, regional 343
 - in lactose deficiency 343
 - in scleroderma 343
 - in tropical sprue 343
 - in Zollinger-Ellison syndrome 343
- Intestinal absorption in man influenced by prostaglandin E_1 86*
- Intestinal absorption of carbohydrate measured in portal vein of man 514
- Intestinal absorption of calcium from milk and lactose intolerance 317
- Intestinal absorption of hemoglobin iron in rats with alcohol induced liver damage 293
- Intestinal absorption of ions and water 357
- Intestinal adaptation to resection in rats 224
- Intestinal crude mucosal extract 205
- Intestinal mucosa
 - atrophy with fasting 309
 - decrease in sucrase activity 309
- Intestinal perfusion
 - intestinal absorption in man 176
- Intestinal perfusion and intestinal absorption in man
 - amino acids 264
 - disaccharides 264
 - folic acid 264
 - lipids 264
 - monosaccharides 264
 - steroid hormones 264
 - water and electrolytes 264
- Intestinal resection and disaccharidases activities in rats 224
- Intestinal resection
 - intestinal absorption estimated by intestinal perfusion 343
- Intestinal secretion
 - collection with a micropipet in the guinea pig 205
 - stimulation of enzyme content by a crude mucosal extract 205
- Intestinal secretion and physiological stimulations 357
- Intestinal transport of water and electrolytes in man 88*
- Irritable bowel syndrome, pressure recordings 21
- Isolated organs in pharmacological studies 149
- J
 - Jaundice cholestatic benign, recurrent 49
 - Jejunum in intestinal absorption 357
- L
 - Lactase activity after intestinal resection in rats 224
 - Lactase deficiency after gastrectomy 130
 - Lactose deficiency
 - intestinal absorption estimated by intestinal perfusion 343
 - Lactose intolerance after gastrectomy 130
 - Lactose intolerance and calcium absorption from milk 317
 - Lecithins secretion in bile in cholelithiasis 540
 - Leucine aminopeptidase
 - in the intestinal secretion of guinea pigs 205
 - Lipase in duodenal aspirate, diagnostic value in pancreatic diseases 8
 - Lithogenic bile, formation in man 540
 - Liver blood flow
 - after portacaval shunt in dogs 332
 - after portal arterialization in dogs 332
 - Liver cancer primary
 - incidence of alphafetoprotein in Italy 41
 - incidence of Australia antigen in Italy 41
